Background of the InventionField of the Invention

[0003] The present invention relates to recreational vehicles and, in particular, relates to a lifting and lowering system for slide-out assemblies in recreational vehicle housings.

Description of the Related Art

[0004] Recreational vehicles are becoming increasingly popular with people who wish to retain the comforts and conveniences of home while spending extended periods of time away from home at remote locations. In more elaborate configurations, the recreational vehicle typically includes amenities such as a bedroom, a bathroom with a sink and a flushing toilet, a kitchen with a refrigerator, stove, and sink, and a generously sized living area with reclining chairs and an entertainment center. Furthermore, a recreational vehicle
